Additional service visits may be needed and billed extra above the normal service fees (e.g., storms, severe algae problems, small animal removal, and debris removal caused by another company). Additional charges apply for cartridge cleaning.

1. **Chemicals:** With the exception of Deluxe service for maintenance chemicals (Stain & Scale, Algicide and Pool Total), all chemicals used will be billed to the customer. Chemicals are added at each service visit as needed either from the customer's or GVPS inventory.
2. **Repairs:** During the season you may experience mechanical problems with your pool equipment. We have a full staff of trained repair professionals who are available to diagnose and repair pool equipment problems. Any repairs needed under \$250 will be made without customer approval. Any repairs over \$250 will require verbal authorization with the technician. Any repairs over \$500 will require written or emailed customer authorization.
3. **Access:** We understand the priority of safety and the reasoning of locking pool gates. If possible, we request that you use combination locks. If a keyed lock must be used, the key must remain hidden on the property. GVPS will not be held responsible for the ownership of keys.
4. **Pools with auto covers:** Our company will not be held responsible for damage to auto covers due to the opening and closing of the cover. All covers must have an automatic pump set up on top of the cover and plugged in. If no auto pump is present, we will provide one and it will be added to the service bill. If excessive water is on top of the cover, the service may not be completed that day. Any time spent pumping off cover will be billed per quarter hour. If pool needs to be shocked the technician will leave the cover open in order for chlorine gases to vent. Covers can be closed after 24 hrs.
5. **Pets:** We Love Dogs! However, it's the customer's responsibility to secure all pets. We will do our best to keep all gates closed during our service visits. In season, (June, July and August) your service visits will be scheduled for the same day. Customers must accept responsibility for any injuries from pets inflicted on our technicians.

8. **Water Level:** It is the customer's responsibility to maintain the proper water level. GVPS will not fill pools during service visits and will not be held responsible for any damage to equipment due to a low water level.

9. **Disclaimers:** GVPS is not responsible for the performance of any chemicals it doesn't sell. Customers should be aware of normal deterioration of equipment that occurs over time due to water chemistry and weather. We are also not responsible for damages caused by the customer's failure to properly maintain the pool equipment between service visits. (Emptying of baskets, water level and adding chemicals.)

10. **Service/Billing Problems:** If you are not completely satisfied with our service **please contact our office immediately**. We do not offer refunds or credits for problems that are brought to our attention at a later date, but we will make every effort to come out and correct any problems as soon as possible when you bring such issues to our attention. Any and all complaints must be reported by the customer within 24 hours of the service to allow GVPS the opportunity to resolve issues that may arise.

11. **Payment:** Due upon completion of services for the month - GVPS will generate and send an invoice to you and automatically charge your credit card or withdraw the amount from the designated account via ACH for payment of services when billed. We will also send an itemized receipt via email, unless mail is requested. A valid account number for an ACH draft or a current credit card will be required to be kept on file and will be used for payment of all invoices. If payment is not received in a timely manner, service may be interrupted. Visa, MasterCard, and Discover are accepted. We no longer accept Amex.
